

activePDF Offers Free Training Session at the PDF Conference Las Vegas

MISSION VIEJO, California – September 27th, 2002 – *activePDF Inc, a leading provider of server-side PDF development and conversion tools for Windows NT, XP and 2000*, is pleased to announce that they will offer a free training session on their product line during the November PDF Conference in Las Vegas, Nevada. The special training class is scheduled for Saturday, November 23rd, from 12:30 to 1:30 p.m.

The highly popular activePDF Toolkit will be the feature of this free one-hour training class. The session will focus on how companies can benefit from dynamic server-based PDF generation and manipulation.

Attendees will learn:

- How to dynamically populate a PDF form template with information from a database
- How to stamp text and images and add page numbering
- How to merge multiple PDF documents
- How to add 40-bit or 128-bit encryption to ensure document security
- How to add linearization (fast web view) to a PDF document

The session is limited to 25 registered attendees of the PDF Conference. Each attendee is required to have rudimentary knowledge of Visual Basic and must bring a laptop running Windows NT, 2000 or XP. activePDF will supply each attendee with a box lunch as well as an activePDF T-shirt and evaluation CD.

Individuals may sign up for this training class at the same time they register for the PDF Conference, either online at www.pdfconference.com or by calling

1-877-278-2131. The upcoming conference will be held Nov. 22-24, 2002, at the Alexis Park Resort in Las Vegas, Nevada.

About PDF Conference: The PDF Conference, produced by DigiPub Solutions Corp., is a skill enhancement event for creators of *.pdf (portable document format). Held twice a year, it features over 30 sessions on all aspects of creating and managing PDFs in government, enterprise, educational and non-profit settings.

About activePDF

activePDF Inc, the leading provider of server-side PDF development and conversion tools for Windows NT and 2000, offers a complete suite of industrial strength PDF tools that free the developer from the nuances and idiosyncrasies of dynamic PDF creation. The most comprehensive server-side PDF development tools in existence, activePDF software remains unique in the PDF industry by offering a server-based suite of tools with no per user or per document licensing. activePDF is the only PDF tool vendor to also provide COM object level access within all of its products to give developers complete control over the PDF creation and manipulation process. Create, paint, form-fill and convert from over 280 document types, including HTML, to PDF dynamically. In business since January 2000, activePDF has a global distribution network spanning every continent and more than 5,000 customers worldwide. activePDF customers include Global and Fortune 500 organizations in the financial/banking services, manufacturing, pharmaceutical, healthcare, education and government industries. activePDF and its product names are trademarks of activePDF, Inc.
