

# Toolkit SP6 - Complete Fixlist

IncidentID	Category	Subject
486	Bug	BUG: CopyForm on PDF Generated by PCL2PDF does not work.
491	Bug	BUG: TK: DoFormFormatting stops working after first build of SP5 dated 6-30-02
523	Bug	BUG: 20025103 - rounding issue after DoFormFormatting =true
547	Bug	BUG: TK 20025400 - ResetFormField method causes a 1.4 spec PDF to become corrupt. 1.3 spec PDF works correctly.
552	Bug	BUG: TK: 20025413 - text in multiline form field is clipped at the end of the line
555	Bug	BUG: TK: 20025503 - DoFormFormatting enabled and SetFormFieldData making calculations incorrect.
557	Bug	BUG: TK: 20025642 - Text put into a form field with a background is placed but does not show up.
563	Documentation	DOC: TK: 20025444 - PrintImage does not scale BMP images correctly.
571	Bug	BUG: TK: 20025680 - StitchPDF Rotation does not work
598	Bug	BUG: TK: 20026001 - PDF generated by "active reports" cause errors on copyform. *Document Specific*
605	Bug	BUG: TK: 20026139 - Clipping on the text in form field using the "Arial Narrow" font
614	Bug	BUG: TK: 20026171 - characters entered manually do no align the same as characters entered by TK.
615	Bug	BUG: TK: 20026283 - Stitched PDF with Rotation and scaling set PDF does not get scaled
627	Bug	BUG: TK: 20026286 - PrintJPEG in MEMORY creates corrupt PDF (Using ImageByteStream)
628	Bug	BUG: TK: 20026429 - SetHeaderTextFillMode & SetHeaderTextBackground retains previous fill mode
631	Bug	BUG: TK: 20026400 - SetHeaderRotation for clockwise direction is not working
633	Bug	BUG: TK: 20026456 - Using multiple copyforms and AddBookmarks = true on an input file that has bookmarks, creates bad PDF
637	Bug	BUG: TK: 20025845 - Copyform fails on first page where text is set landscape.
640	Bug	BUG: TK: 20026570 - SetFormFieldData-placement different between SP4 & SP5 when using the -997 or -998 flags
641	Bug	BUG: TK: 20026529 - SetTextRotation does not work with negative numbers
642	Bug	BUG: TK: 20026159 - Using SetFormFieldData - Extra space at the end of a string causes extra line in text.
643	Bug	BUG: TK: 20026563 - SetFormFieldData is stretching characters when 0 is used, if -997 or -998 is used stretch does not occur
653	Bug	BUG: TK: 20026802 - *Document Specific* ResetFormFields is causing an exception error
657	Bug	BUG: TK: 20026813 - SetHeader & SetHeaderMultiline randomly do incorrect fonts
668	Bug	BUG: TK: 20026885 - Toolkit does not maintain the PDFVersion upon copyform or mergefile
671	Bug	BUG: TK: 20027098 - GetTextWidth returns incorrect value when string contains VBCRLF
726	Bug	BUG: TK: 20028157 - *Document Specific* TK.AddBookmark = True causes Exception in Wscript.exe or Cscript.exe
729	Bug	BUG: TK: 20027277 - SetHeaderFont throws exception
732	Bug	BUG: TK: 20028248 - Image Quality of Group 3 Fax Tiff's is poor when converted to PDF using Tiff
737	Bug	BUG: TK: 20028367 - Debug messages are being sent to stderr
747	Bug	BUG: TK: 20028492 - RemoveWhiteSpace = True not fuctioning properly when using Acrobat/Acrobat Reader 5.0 or 5.1
754	Documentation	DOC: TK: 20028652 - SetHeaderMultiLineText incorrectly calculate x,y coordinates
757	Bug	BUG: TK: 20028663 - TextToPDF object will not convert some TXT files to PDF
763	Documentation	DOC: TK: 20028698 - PDF image in formfield rotates incorrectly when formfilling.
772	Bug	BUG: TK: 20028760 - DoFormFormatting does not apply formatting to the parent formfield when parent formfield has children form
776	Bug	BUG: TK: 20028848 - Multiline formfiled with auto size font, does not get resized as the text grows.
777	Bug	BUG: TK: 20028932 - SetHeaderJPEG via MEMORY is not working
779	Bug	BUG: TK: 20029019 - *Document Specific* Copyform fails and creates a 1k file
787	Bug	BUG: TK: 20029110 - StitchPDF - when set resize and rotation are set, the resizing does not work
788	Bug	BUG: TK: 20029176 - *Document Specific* FormField Defaults are not cleared out or replaced when SetFormFieldData is used.
798	Documentation	DOC: TK: 20029320 - StitchPDF while changing size of PDF, results in incorrect placement (artbox?)
807	Bug	BUG: TK: 20029714 - SetHeaderText fails to kern accented characters properly when using the Arial font
810	Bug	BUG: TK: 20029792 - Using SetHeaderText and passing "99\1" - "99\3" cause strange characters to appear.
814	Bug	BUG: TK: 20029960 - *LexisNexis - DocSpecific* Simple CopyForm 0, 0 only copies page 3 of the 3 pages.
815	Documentation	DOC: TK: 20029939 - AddHyperlink, style set to zero, should be invisible, but instead creates a solid black box
816	Bug	BUG: TK: 20029552 - 3 true type fonts used with Toolkit causes an exception.
826	Bug	BUG: TK: 20030174 - Toolkit JPGToPDF not converting image correct size.
832	Bug	BUG: TK: 20030357 - SetHeaderTextBackground causes font errors when WPgNbr is also called in the same code.
839	Documentation	DOC: TK: 20030462 - AddLink Methods - when specifying page 1 it places the link on page two.
840	Bug	BUG: TK: 20030453 - "Courier New" fonts do not work with SetHeaderMultilineText, PrintText or SetHeaderText
844	Bug	BUG: TK: 20030460 - *Document Specific* FormFilled Data does not show up in formfields unless formfields are flattened.
862	Documentation	DOC: TK: 20030948 - Logo PDF does not show up in the output PDF correctly
864	Documentation	DOC: TK: 20031094 - SetViewerPreference's FitWindows option does not work
866	Bug	BUG: TK: 20030803 - PrintJPEG, PrintImage have an issue with heavy loads and high concurrent users.

<b>IncidentID</b>	<b>Category</b>	<b>Subject</b>
875	Bug	BUG: TK: 20031178 - *Document Specific* - Filling a FormField with data that contains a hyphen, causes an exception.
889	Bug	BUG: TK: 20031561 - DoFormFormatting removes the number formatting from some fields.
899	Bug	BUG: TK: 20031689 - Euro symbol does not display in FormField formatted as Number with Euro as the currency symbol
900	Bug	BUG: TK: 20031823 - When formatting a FormField as a time field with 24 hour time, the time is not formatted correctly
915	Bug	BUG: TK: 20032152 - A 1.5 spec PDF (acrobat 6.x) causes an exception in OpenInputFile.
917	Bug	BUG: TK: 20032139 - Flattening a Radio Button form field makes it a square
919	Bug	BUG: TK: 20032177 - *Document Specific* Input PDF generated with DocuCom does not output PDF
929	Bug	BUG: TK: 20032117 - EncryptFile causes Acrobat Reader 6.0 to have to rebuild the PDF
937	Bug	BUG: TK: 20032734 - *Document Specific* Document will fail on OpenInputFile until it is "saved as"
938	Bug	BUG: TK: 20032912 - Problem with certain TIF files.
944	Bug	BUG: TK: 20033118 - GetTextWidth shows a different value for "á" than it does "a"
945	Bug	BUG: TK: 20033197 - PDF's created with ASPEasyPDF do not work as InputFiles for Toolkit
952	Bug	BUG: TK: 20032740 - OpenOutputFile returns 0 when writing to a folder with NTFS permissions blocked if SetOutputSecurity is used
954	Bug	BUG: TK: 20032637 OpenInputFile throws exception when used with InputByteStream with an invalid PDF.
959	Bug	BUG: TK: 20033245 - SetFormFieldData slows greatly with large string insertions
965	Bug	BUG: TK: 20033587 - BUG: Getting the PDFFieldInfo object for a field and then flattening it blacks out the field.
970	Bug	BUG: TK: 20033764 - Short Descriptions of formfields do not get retained when using mutually exclusive radio buttons.
971	Bug	BUG: TK: 20033605 - *Document Specific* OutputLinearized causes error PDF 1.5 when open in IE browser with Acrobat 6.0
972	Bug	BUG: TK: GetPDFInfo blocks input file from being closed with CloseInputFile or CloseOutputFile
974	Bug	BUG: TK: TextToPDF: When using the border properties, annotations are not adjusted by the border like the text is.
975	Bug	BUG: TK: 20034114 - *Document Specific* - This input file hangs WScript on the copyform method
976	Documentation	DOC: TK: 20034219 - Calculating fields not working
977	Documentation	DOC: TK: 20034126 - All document Bookmarks are sent to the output when doing a copyform on one page
978	Documentation	DOC: TK: 20034296 - CurrentLogoNumber does not work when using CopyForm
979	Bug	BUG: TK: 20034496 - *Document Specific* This input file fails on CopyForm
981	Bug	BUG: TK: SP6: The following 4.0 Properties and Methods are visible in SP6.
982	Bug	BUG: TK: SP6: DBToForm throws exception in SP6 Beta 2.
983	Bug	BUG: TK: 20034580 - *Document Specific* bad PDF files cause exeption or runtime error on OpenInputFile
985	Bug	BUG: TK: 20034142 - DCX file is not converting as a multipage PDF file, only produces as a one page PDF.
992	Bug	BUG: TK: OutputByteStream returns a bad PDF that throws an exception on OpenInputFile
995	Bug	BUG: TK: SP6B2: SetMasterQuery throw an exception in this example
999	Bug	BUG: TK: SP6: 20035281 - -996 flag for SetFormFieldData does not work to insert an image into a formfield.
1000	Bug	BUG: TK: Long text in a single line text form field overlaps the right side when flattened.
1004	Bug	BUG: TK: 20035342 - Font metrics appear to be incorrect or missing in Avenir BlackOblique font
1006	Bug	BUG: TK: 20035360 - *Document Specific* FlattenRemainingFormFields causes error and bad output.
1012	Bug	BUG: TK: 20035516 - Flattening a radio button that isn't set makes the field outline dissappear.
1013	Bug	BUG: TK: 20035276 - Unable to Form-Fill PDF successfully with TK SP6 VB.NET with wrapper.
1014	Bug	BUG: TK: TK throws an exception when trying to instantiate the FieldInfo object when the InputFile didn't open correctly.
1015	Bug	BUG: TK: If you populate formfields with images, and do not use TK.ResetFormFields, an exception is thrown.
1018	Bug	BUG: TK: 20035723 - InputByteStream causes exception from OutputByteStream data.
1025	Bug	BUG: TK: GIF's in MEMORY do not work with ImageToPDF and PrintImage
1028	Bug	BUG: TK: PCX's in MEMORY do not work with ImageToPDF and PrintImage
1031	Bug	BUG: TK: TIFF's corrupt output page size when using PrintImage and PrintTIFF
1040	Bug	BUG: TK: 20035792 - PrintImage, PrintTIFF, TIFFToPDF and SetHeaderImage return a -8 on these TIFF's
1041	Bug	BUG: TK: Text2PDF: 20035907 - Text2PDF lines show chars from the previous lines.
1043	Bug	BUG: TK: 20035955 - Flattening Radio button and checkbox fields not working properly
1045	Bug	BUG: TK: BMP's in MEMORY do not work with ImageToPDF and PrintImage
1046	Bug	BUG: TK: 20036078 - CopyForm crashes on unsupported LZW compressed PDF file
1047	Bug	BUG: TK: 20036068 - TiffToPDF returns -8 when using TIFF's created with Photoshop.
1048	Bug	BUG: TK: 20036099 - Specific TIF conversion creates duplicate pages in the output PDF
1052	Bug	BUG: TK: 20036223 - *Document Specific* Attached PDF throws exception on OpenInputFile
1055	Bug	BUG: TK: 20036105 - *Document Specific* CopyForm in Evaluation copy throws an exception
1059	Bug	BUG: TK: 20036519 - True fonts are not embeded in the PDF when running on Windows 2000 Terminal Service.
1061	Bug	BUG: TK: 20036427 - Certain Tiffs will not convert with Toolkit image conversion methods
1062	Bug	BUG: TK: 20036639 - *Document Specific* CopyForm crashes on a specific PDF file
1065	Bug	BUG: TK: 20036523 - Duplicate vbCr's are ignored in SP6.
1067	Bug	BUG: TK: Document Properties dialog can't be opened when setting CustomDocInfo with spaces in the field name

<b>IncidentID</b>	<b>Category</b>	<b>Subject</b>
1069	Bug	BUG: TK: 20036960 - SetFormFieldData does not encode radio button export values with symbols correctly
1071	Bug	BUG: TK: 20036883 - Action Script Retrieval greater than 256 characters fails
1078	Bug	BUG: TK: 20037483 - Flattening a checkbox results in embedding of different font for checkmark
1080	Bug	BUG: TK: 20037306 - Flattening these radio buttons throws error when copying them multiple times
1082	Bug	BUG: TK: 20037454 - When using RoboPDF files as input, Acrobat throws error on output PDF
1087	Bug	BUG: TK: 20037838 - *Document Specific* In build 5083, Toolkit must flatten fields on input.pdf to work
1088	Bug	BUG: TK: 20037864 - Output file produces 'There was an error processing a page. There was a problem reading this document (110)'
1116	Bug	BUG: TK: 20038093 - PrintTiff method creates PDF with original colors not maintained
1118	Bug	BUG: TK: 20038522 - Text in a multiline form field jumps down when focus is set to this field
1119	Bug	BUG: TK: 20038721 - When using base 14 font for a field, and filling with Toolkit, the font is subbed with ArialMT until clicked
1126	Bug	BUG: TK: 20041956 - FieldInfo.FormatString does not return value.
1127	Bug	BUG: TK: 20047511 - Document Specific: LinearizeFile or OutputLinearized fail with -1
1129	Bug	BUG: TK: 20047924 - Euro sign changes to a bullet in an unflattened field with SetFormFieldData
1131	Bug	BUG: TK: 20048271 - Destinations not being retained from Input to Output PDF files
1133	Bug	BUG: TK: 20050498 - Text in a FormField shifts after the setformfielddata
1143	Bug	BUG: TK: 20057499 - Document Specific: Output are not created when set OutputLinearized to true
